Pdl. No. C3-3/1940

Station Mount Road, Madras, Dated the 22nd February 1940

From (Name) Lieut.-Col. S. C. Contractor, M.B., I.M.S.,  
 (Designation) Chief Inspector of Certified Schools

To The Secretary to the Government of Madras,

Home Department.

Sir,

I submit herewith copy of questionnaire duly  
 answered for the Junior Certified School, Bellary, which  
 was inspected by me last month.

Lt. Col. I.M.S.,  
 Chief Inspector of Certified Schools.

Copy to the Headmaster, Junior Certified School, Bellary  
 together with a copy of the questionnaire for information  
 and necessary action.

2. The action taken on the several points raised should be  
 reported to this office in due course.

CHIEF INSPECTOR OF CERTIFIED SCHOOLS.

Qv.

Questionnaire for inspection of the Junior Certified School Bellary.

Date of last inspection 20 and 21-4-1938 Date of inspection 17 & 18-1-1940

PART I—GENERAL ADMINISTRATION.

Q. 1. (1) Number committed under the Madras Children Act—

|                                |     |
|--------------------------------|-----|
| (i) For offences               | 54  |
| (ii) As uncontrollables        | 54  |
| (iii) As orphans or destitutes | 235 |
| Total:                         | 343 |

(2) Was every pupil produced at the inspection? Yes

Q. 2. How many mental defectives are there in the schools? Can they be dealt with suitably in the school, and if not, what action is proposed? None

Q. 3. Were any of the inmates committed as orphans or destitutes without adequate enquiry, or for insufficient reasons? No, but in the case of pupil No.717 Muhammad Ismail the President, Discharged Prisoners' Aid Society, Bellary, has addressed the II Presidency Magistrate, Madras, for the discharge of the boy stating that the boy was not destitute and the parents of the boy have come from Ambur to claim him. The Court's order is still awaited.

Q. 4. What is the actual existing accommodation of the school under the following heads, viz.—

| Dormitories. | Hospitals. | Segregation sheds. | Others. | Total. |
|--------------|------------|--------------------|---------|--------|
| 380          | 20         | ..                 | ..      | 400    |

5  
2

Q. 5. If there is any overcrowding where are excess pupils accommodated? No

When necessary additional barrack or barracks is taken over to provide accommodation.

Q. 6 (a) Are the buildings sufficient, suitable and in good repair? If not, in what respects are additions, alterations, or repairs called for?

cf 14.12.19 (H)

Yes, but not in good repair. Improvements suggested at my last inspection in April 1939 to the Kitchen, Dining hall, latrine and Dhoby-shed have not been carried out. The Assistant Engineer, Public Works Department, was present at the time of my inspection on 18-1-1940. He was again requested to carry out the improvements as quickly as possible. I cannot understand why the Public Works Department are delaying execution of these works after even 9 months. Since my last inspection these improvements have not been carried out.

(b) Have original and repair works carried out during the previous year been satisfactorily done?

Nil

Q. 7. (1) Is a school punishment book maintained?

Yes

(2) Have punishments been sensible? ..

Appear to be so.

Q. 8 (a) Was there any escape of a pupil during the year? If so, state the circumstances?

Fourteen escapes for the period from 21-4-1939 to 18-1-1940.

Vide Annexure 'A'

pp 23-25 wjn

(b) Did any pupil, granted leave under rule 34, overstay such leave? No

Q. 9. (1) How are the ration supplies of the school brought and how many merchants are now concerned in the supply? How do the rates compare with the previous years' rates, with market rates and with the rates in similar institutions?

By contract.  
Thirteen contractors.  
Annexure 'B' — pp 26-27 v/pun

(2) Are all articles obtained by the tender or auction system? If not state the exceptions, with reasons.

Both. Auction and Tender.  
Miscellaneous by tender e.g., match-boxes stove pins, coffee, butter etc.

(3) Have all agreement bonds been executed by the Chief Inspector of Certified Schools? Yes

(4) Is there any excessive accumulation of ration stocks? No

(5) Are the stock book of rations and diet roll properly maintained? Yes

(6) Are the rations found in store of good quality and is the food properly cooked? Yes  
Yes

(7) Is the whole supply of vegetables obtained from the school gardens? If not, give figures showing school garden produce and contractor's supplies during last calendar year?

No. It is impossible.  
School garden - lbs. 7604  
Outside purchase - lbs. 53634½

(8) What is the daily issue of fuel per head?

One lb. per head.

Q. 10. Is the dietary strictly 'in' accordance with the rules? If not, in what respect does it vary?

Yes

Q. 11. (1) Is the clothing and bedding issued in strict accordance with the rules?

Yes

(2) Is the prescribed extra blanket issued during the cold months?

Yes, although it is not in the Children's Act.  
The question has been awaiting Government's decision.

*G. G. 78511c*  
*15/2/40*

(3) Is the clothing and bedding register properly maintained?

Yes

Q. 12. Have the following registers and books been properly maintained?

(1) Visitors' book .. .. Yes

(2) *Head Master*  
Superintendent's journal .. .. Yes

(3) *Head Master's*  
Superintendent's order book .. .. Yes

(4) Register of admission and discharges .. Yes

(5) History of discharged pupils .. .. Yes

5-6

Q. 13 (a) Have the Committee of Visitors met regularly and have the visitors individually visited the school sufficiently ?

Yes

Only one visit by the Provincial Jail visitor on 30-12-1939 since my last inspection. There are no individual visits paid by any Non-official visitors individually.

(b) Has suitable action been taken on visitors recommendations ? Yes, as far as possible.

*Head master*  
Q. 14. Has the ~~Superintendent~~ <sup>Head master</sup> complied with the provisions of the last paragraph of rule 17 of the Rules framed under the Madras Children Act, 1920? Yes

Q. 15. Are the badge and mark money system properly worked ? Appear to be so.

Q. 16. Does it appear that the monitors and assistant monitors have been well chosen ? Appear to be so. The present Head-master has reduced a few who were found undesirables or unsuitable.

Q. 17. Were any pupils discharged on license during the year? If so, has their conduct been satisfactory?

Yes, five.  
Four reports received. The conduct of the pupils was reported to be satisfactory.  
One report not received. A reminder was sent on 30-12-1939.

Q. 18. Examine the History of pupils Register and state how many of the previous years discharges have been reported on.

Examined.  
42 due; 41 have been reported on.  
1(pupil No.723) was discharged as per G.O.No.2273, Home, dated 25-4-39 being overaged.

(N)  
p.15

Q. 19. Are the provisions of rule 57 strictly observed at time of discharge of pupils? Yes

Q. 20. Is the school divided into houses? If so, who is in charge and responsible for each?

Yes - Seven houses.  
Teachers and Instructors are in charge.

Q. 21. What are the school arrangements for supervision and amusements of pupils between 6-30 and 8-30 p.m.?

Vide Annexure 'C' — p28 wjm

8

Q. 22. Are games regularly played and do all pupils take part? Yes, except those who are detained on medical grounds.

Q. 23. Is the Scout Movement in operation? Yes  
How many pupils are members of the organization? 80 scouts and 50 cubs.

Q. 24. Have the District Magistrates appointed sufficient number of persons who are authorized to act under section 29 of the Madras Children Act? Yes

Q. 25. Are contributions under Section 31 of the Madras Children Act by the parents, etc., collected properly? Only one boy No. 513 Dilli Ba pays Rs. 4/- per month.

Q. 26. (1) Are all pupils attending school classes? Yes

9  
8

(2) Is the time-table regulating the working of the school suitably arranged so as to allow of as efficient instruction as possible? Appear to be so.

(3) Are the teachers considered to be working satisfactorily? Appear to be so.

(4) Are the educational classes inspected and examined periodically by the Educational authorities? Yes, on 5-12-1939 by the District Educational Officer, Bellary.

pp 29-31

(5) What was the General report of the District Educational Officer who inspected the school? Vide Annexure 'D' - Copy of the District Educational Officer's report together with a copy of the review of the Divisional Inspector of Schools, Guntur Division.

(6) Is there a school library and is it suitable and sufficient? 1. Yes, appear to be so.  
2. There is scope for improvement. The District Educational Officer may be consulted.

Appointing a director to the Headmaster

Q. 27. (1) Are lectures on moral and religious subjects being given regularly for all religious denomination ?

Yes, by the teachers.  
After stoppage of conveyance allowance, the Muhammaḍan and Hindu honorary Moral and Religious lecturers discontinued their visits to the school.  
For Christians - One honorary lecturer (Rev. Fr. Fidlis) is coming to the School every Sunday.

(2) Are religious observances of pupils duly respected ?

Yes

Q. 28. (1) What are the industries or vocations taught in the school ?

Carpentry; Weaving;  
Blacksmithy; Tailoring; and  
Gardening.

(2) How far do the receipts pay for the instructions ?

Receipts (January 1939 to  
December, 1939) ... Rs.7128/-  
Instructors' pay do. Rs.2489/-

(3) Are the instructors competent, the methods of instructions satisfactory and the equipment sufficient ?

Appear to be so.

(4) Does the <sup>Head Master</sup> Superintendent make proper use of his allotment for instructional purposes and is it sufficient?

Yes ) Amount spent under:-  
 Yes. ) Tailoring ... Rs. 9- 5- 2  
 Carpentry ... 19- 0- 0  
 Weaving ... 10- 5- 5  
 Blacksmithy.. 10-12- 0

Not in Carpentry and Weaving sections. More treadle looms are required. Action is being taken to provide more treadle looms during the next financial year 1940-41.

(5) Is the equipment satisfactory?

Carpentry section - Work-benches and tools are badly required. Work benches are in a disgraceful condition. New tools are required for the section. Without new tools there can be no improvement in the quality of the work turned out. Copy of Committee of Visitors' remarks dated 21-12-39 enclosed.

*Separate* As per Government Memorandum No. 40783 G-1, Home, dated 5-12-1939 a revised estimate for Carpentry tools and work benches etc. will be submitted shortly for sanction of funds.  
*12.3.5 w/pa*  
*W.S. 29/2*  
*once read*

(6) Is the data book maintained up to date under the Superintendent's initials?  
<sup>Head Master's</sup>

Yes

(7) Are manufactured articles regularly examined by the <sup>Head Master</sup> Superintendent on their receipt from the workshop and does he satisfy himself also of their correctness and that they are actually passed into the stores?

Yes

Yes

(8) Is there any accumulation of stocks of raw materials or manufactured articles in the stores? If so, state the nature and quantity of such materials or articles and action taken to dispose of them.

No

11.12

(9) Is the introduction of any new form of industrial training recommended? Perhaps Masonry may be introduced.

pp 72-33 w/ja

Q. 29. Give in detail the staff of the School. **Vide Annexure 'E'**  
Is it sufficient? **Not sufficient.**

One secondary grade trained teacher wanted for handling the newly opened Sixth Standard which has been inspected by the District Educational Officer and to teach English in IV, V and VI standards

One additional Weaving Instructor is required. Proposals have already been submitted to Government - vide my letter R.O.C.No.2328-B2/39 dated 18-12-1939. *separate file*

One Compounder is required to assist the Medical Officer of the School. Proposals have been submitted to Government - vide my letter No.R.O.C. 2645-B2/39, dated 16-11-1939. Further particulars called for by Government in U.O.Note No.39156,G/40-2, Home, dated 15-1-40 will be submitted shortly. *separate file*

Q. 30. Is proper accommodation provided for those entitled to quarters? **Out of 11 Petty officers, only 4 petty officers are provided with quarters. The rest are paid House rent allowance.**

Q. 31. Are the confidential reports on subordinate officers thorough, and up to date and are the personal files properly maintained? **Yes**

Q. 32. Are you satisfied that the <sup>Head Master</sup> Superintendent has maintained proper discipline among the staff? **Yes, but he has to pull up discipline.**

Q. 33. Are service books written up to date and the required certificate of verification recorded in them? **Yes**

Q. 34. Is the Chief Inspector satisfied that the work in the school office is up to date in every respect? Yes

Q. 35. Was the last audit report satisfactory or otherwise "Satisfactory" - but clothing and bedding registers require to be maintained with more care. Action has already been taken by the Audit Section separately.

Q. 36. Is the stock book of civil stores and manufactory tools and plant properly maintained? Yes  
Yes

Q. 37. Have suggestions or orders made in the previous inspection note been carried out? With the exception of improvements to the Kitchen, Dhobykhana, more latrine seats, removal of the screen wall in the Dining hall.

*1. All  
with order 6(a) etc*

Q. 38. Remarks by the Chief Inspector on the school establishment or any branch of the school administration which calls for special remarks.

P.T.O.

~~Chief Inspector's Remarks~~

1. The boys appeared to be happy and they had no complaints to make. The new Headmaster appears to have won them over by his tact and understanding and since my last visit to the school in August 1939 the school appears to have almost undergone transformation. It looks better and roads and paths are well laid out, barbed wire properly fixed up - all this the Headmaster told me he has accomplished with the help and co-operation of the boys. The barbed wire enclosure has also been drawn in so that better supervision could be exercised. Today a different atmosphere pervades the whole school. Though I was given to understand that some of the staff who were used to the old ways and methods do not co-operate or co-operate reluctantly. I will deal with them-as a matter of fact when I was there I warned one of them severely and further action will be taken if he does not improve.
2. The new Headmaster has introduced actual theory, first making the boys do the work on paper and then do the same on the actual object or article and I never saw this before in my previous inspections. I saw various patterns and designs done by the pupils in note books, which they copied eventually in actual practice.
3. The garden plots and beds were well laid out though as in the Central Jail, Bellary, so here the cold weather had affected adversely the young shoots and plants. Unfortunately also there is no school where there is enough land to conduct gardening or field operations. As most of the pupils come from the villages where their ancestors and fathers have been subsisting on land it would be a very great advantage if facilities are provided for the boys to learn modern methods in farming. At present the industries provided in the school are carpentry, weaving, tailoring and blacksmithy. But training in agriculture to which most of the boys will probably revert after they leave the school is not provided for. Of course for Agricultural purposes extensive lands are required and plentiful supply of water. What little training is provided in the three certified schools is mostly confined to flower gardening and vegetable growing. No attempt has so far been made in any one of the schools for training in agriculture and absolutely no instruction in

15

fruit culture. There is not enough land and not enough water or even a constant supply of water. The Agricultural Demonstrator has paid 8 visits since July 1939 and spends about one hour in the school. The Headmaster says that the Agricultural Demonstrator during his visits to the school goes round the flower and vegetable gardens with him and gives instructions to the gardener about preparation of the soil for sowing, applying manure, collection of seeds etc. Whenever the boys are seen working in the garden class practical instruction on the above subjects are given by him. He also gives advice about the rotation of crops and the method of planting and raising the flower plants etc. The school garden at present consists of vegetables - both solids and greens - and flower plants. I wish we had large and extensive lands where these boys most of whom are drawn from agricultural class could be trained in modern methods of agriculture under a qualified agricultural instructor.

4. Unlike other sister institutions there is no complaint about overcrowding for if and when necessary additional barrack or barracks is taken over but additional electric lights are required as the boys have to study at night with Petromax lamps the light of which does not reach everywhere. 12 more electric lights are required for No. XI barrack recently brought into use as dormitory.

5. The gymnasium is poorly equipped - a trapeze, double-bars and climbing rope-ladder being the only equipment so far. When funds become available additional equipment may be provided for.

6. Since my last inspection very little has been done by the Public Works Department in the way of improvements, alterations etc. Nothing has been done to the kitchen yet. The Sub Divisional Officer was sent for and I pointed out the improvements that were still not undertaken. I found the kitchen smoky. The Headmaster should get into touch with the Public Works Department and remedy this defect.

5  
3  
2  
1  
6(a)

There are two pillars which come in the way of those who are engaged in the cook room. These may be removed and instead a girder may be put in consultation with the Public Works Department.

N. and W. R.  
dm. (62)

7. The old Dhobykhana which I pointed out in my last inspection is still in a dilapidated condition. If alterations cannot be effected to this building it may be considered whether it is worth retaining it there as it may be a source of danger to the lives of the pupils.

8. The bathing arrangements appear to be inadequate. There is only one small trough for this purpose and considerable time is taken up and wasted by boys <sup>for</sup> bathing. To overcome this additional extensions may be made to the present bathing cistern at right angles to the present cistern as the present site is the most convenient being near the water-supply. The Public Works Department however should be consulted if they have any better suggestion to make.

9. There appears to be inadequacy of latrine seats there being only 39 seats for a population of 343. This may be increasing and additional seats may be required. There is an old Alipuram Jail latrine near-by which was pointed out to the Public Works Department Overseer during my inspection last year which can be converted into a very good latrine with a little expenditure. Everything is there except the side walls and a roof may be necessary which can be done without very much expenditure as there is plenty of old material available there.

10. While on this the Headmaster should in consultation with the Public Works Department report whether the old buildings which are there ~~are~~ are safe. If not, will they endanger the lives of the ~~the~~ boys small as they are as they may stray in one of these old dilapidated buildings. There are some buildings without roofs and other buildings with broken down and dilapidated walls supporting a roof of sorts. They should all be examined by the Public Works Department and a special report submitted with regard to their safety or otherwise to the lives of the boys.

12. Bedside lockers kept in the Hospital ward require to be painted. Some of them are not fly-proof. They should be made fly-proof.

17

11. Pupils in the Industrial sections were found sitting on the floor and using planks as writing desks with great discomfort bending very low and almost falling on the note books and planks. They were drawing sketches and designs. The Headmaster was asked to raise the planks to sufficient height so that the pupils may do their theoretical work without leaning over the note books.

12. Examined the Educational sections. The progress of the pupils in reading, writing and arithmetic appears to be satisfactory.

13. The school library consists of, 131 Tamil books and 106 Telugu books for a population of 265 Tamil boys and 81 Telugu boys. There are 40 old and torn books in English which are of no use to the pupils but the <sup>Senior</sup> teacher told me that some of them are used by the teachers.

14. The pupils are not provided with lockers to keep their clothes. The Headmaster should furnish necessary estimates for making the lockers.

15. There were as many as 14 escapes during the year under report. The new Headmaster who has the necessary qualifications for a ~~xxxxxx~~ school of this type for the reclamation of juvenile delinquents took charge of the school on 18-7-1939. He has been enforcing discipline among the pupils who do not like it very much. Though the sanctioned strength of Petty officers is 11, only 9 petty officers are employed, for, suitable candidates with S.S.L.C. qualifications for appointment as Special grade petty officers are not available. For a population of 343, nine petty officers are quite inadequate to have effective -- control and supervision over the pupils, especially where the area to be guarded is very extensive. The discontented pupils took advantage of the situation and succeeded in escaping from custody. All the pupils except three have been recaptured and readmitted into the school. The Headmaster should impress upon the young minds of the pupils that they should avail themselves of the facilities afforded to them by Government to make them good and useful citizens. Of course in an institution for

Ans  
w.r  
(2.8.39)

K

18

such small children escapes are inevitable as it is mainly  
due to their lack of adjustment to the<sup>new</sup> environment and  
discipline. A good number of them become homesick and want  
their parents, particularly their mothers.

*Leavitt*  
Lt.Col.I.M.S.,  
Chief Inspector of Certified Schools.

PART II.—MEDICAL AND SANITARY.

Q. 1. Are the dormitories cleaned properly every morning ? Yes

Q. 2. Is the drainage of the school in a satisfactory condition, if not what are the defects ? Yes

Q. 3. Are the lines in good repair and under careful sanitary control ? Yes

Q. 4. (1) From what source is the drinking water obtained and is it sufficient ? Alipuram Tank water.  
Not enough throughout the year.  
Municipal water supply for drinking purposes has got to be resorted to.  
At present, I am given to understand that it is two months supply only in the Alipuram Tank.

(2) Is it chlorinated and are field tests carried out regularly ? Yes every day.  
Once a week.

(3) When was the drinking water last examined bacteriologically at the King Institute ? 11-7-1939.  
Copy of the King Institute's report is attached - vide Annexure 'F'

*[Handwritten signature]*

14

(4) Are the drinking water wells protected from pollution, and if so, how? How is the water raised from these wells?

No drinking water-well.

(5) When are the wells from which the drinking water, or bathing water is obtained last cleaned out?

No bathing water well. Alipuram tank water used for bathing purpose also.

Q. 5. (1) Does the medical Subordinates inspect the cooked food daily?

Yes daily (thrice)

(2) Does the <sup>Head Master</sup> Superintendent test the food?

Yes

Q. 6. (1) Is separate clothing issued to patients in hospital, according to approved pattern?

Yes

(2) Is the clothing and bedding regularly aired?

Yes

(3) Are the pupils required to bathe regularly? Yes, daily. There is only one bathing place which is too small for such a large number of boys. The present bathing cistern requires extension.

Q. 7. (1) Is the latrine accommodation sufficient? Are the latrines fly-proof?

Not sufficient for the increasing population. 39 seats - Fly-proof.

One of the old latrines pointed out to the Public Works Department Overseer during my last inspection may be converted into a fly-proof latrine.

There should be a separate Undah for urinating.

Vide note  
under Q. 6(a)  
of part I

(2) Are the day and night conveyance arrangements satisfactory? (Yes

(3) Is urine disposed of in the school gardens or trenched separately? Trenched separately.

Q. 8. Does the Medical Officer visit regularly and carry out medical inspection of all pupils? Yes, every Wednesday the Superintendent, Wellesley Saha-torium Jail visits the place.

Q. 9. (1) What is the present number of—

(i) Sick in the hospital? 7

(ii) Out-patients. 27

(iii) Other pupils on special diet. 2

(2) Is there any prevalence of bowel diseases; if so, state cause and action taken to control conditions? No

(3) How many deaths have there been in the present calendar year and how many in the last year? Present Calendar year - Nil - Last year two.

(4) Specify causes or deaths in present year. Does not arise.

(5) Are all precautionary measures taken to prevent the spread of infectious diseases? Yes.

(6) Were any pupils removed for treatment in a civil hospital during the year? If so, give the numbers of such cases? Yes  
 30 pupils removed to local Headquarter Hospital, Bellary during 1939  
 3 pupils do. from 1-1-1940 to 18-1-1940.

Q. 10. (1) Are the pupils weighed monthly and have their weights been satisfactory during the present calendar year? Yes

(2) Is the general health of the pupils satisfactory? Yes. Very little stomatitis noticed at this inspection.

Q. 11. (1) Is the medical and sanitary administration of the school satisfactory in every respect? Yes

(2) Does the medical officer maintain a journal in form No. 5 and enter therein all important occurrences? Yes

*Seen. T. S. K.*

Lt. Col. I. M. S.,  
 Chief Inspector of Certified Schools.

23

Annexure 'A'.

Answer to Q.8(a) Part I of the Questionnaire:-

Fourteen escapes for the period from 21-4-1939 to 18-1-1940:-

1) Pupil No.681 Rangan Chetty escaped at 3-30 p.m. on 13-9-1939 from the garden. When the gardener was engaged in propping up a plant with few boys in one end, this boy managed to disappear and escape from the school. He was recaptured on 17-9-1939 by the Police and readmitted into the school on 20-9-1939. The gardener was fined Rs.2/- for his slackness in duty.

2) Pupil No.578 Kareem escaped from the tailoring class at about 3-30 p.m. on 13-9-1939 when the Tailor Instructor went to the office which is behind his class room, for preparing an indent. The boy on 17-9-39 was recaptured/and readmitted on 20-9-1939 by the Police. An -- enquiry was held and the Tailor Instructor was found responsible for the escape as he failed to bolt his class room door from without and was therefore fined Rs.2/--.

3, 4 and 5:- Pupil No.492 Palaniswamy, Pupil No.592 Kothandam and No.687 Boya Venkatappa. These three boys escaped on the morning of 5-9-1939 at about 8 A.M. After the morning conjee parade the boys are formed into groups of their relative houses and then marched into the prayer hall. There will be little commotion then. At that time, these boys slipped out and escaped. They were recaptured by the police on 6-9-1939 and readmitted into the school on 7-9-1939. Peon Destagir who was put in charge of the group from which the escape occurred was removed from service for his carelessness.

6) Pupil No.387 Munuswamy Reddi escaped on the noon of 9-6-1939. This boy went to the Hospital for treatment ~~in~~ the noon when all other boys were taking meals. After taking medicine, he went towards the meals parade ground; but instead of joining the parade he went here and there under the pretext of ~~calling~~ from some pain and managed to get out of the school. He was rearrested on -- 10-6-1939 by the Police and readmitted into the school on 12-6-39.

A | An enquiry was held and the responsibility for the escape could not be fixed on any one. A general warning was issued by the Headmaster to all the members of the staff to be vigilant at all

times.

7 and 8. Pupil No.470 Periaswamy and Pupil No.482 Venkatadri escaped from the school on 22-6-1939. When the boys were marched after the midday meals from the Dining hall to the parade ground, these boys slipped into the latrine which is on the way, unnoticed, hid themselves there till the latrine para Petty officer went home and then escaped. An enquiry was conducted. The latrine para Petty officer B.Hanumanthachar was found responsible for the escape and fined Rs.3/-. Pupil No.482 Venkatadri was rearrested on 22-6-1939 by the Police and readmitted into the school on 22-6-1939. Pupil No.470 Periaswamy is still at large.

9 and 10. Pupil No.272 Chellamuthu and Pupil No.433 Ayyaswamy. These two boys escaped at about 8-30 a.m. on 10-7-1939. They were in the batch of boys getting treatment as out-patients on the morning of 10-7-1939. There will be usually a big gathering and rush. When the Petty officer posted for hospital work was helping the doctor in dispensing medicine, these boys went out of the hospital and escaped. They were rearrested by the Police on 11-7-1939 and brought back to the school on the same day. As the responsibility for the escape could not be definitely fixed on any particular person, the staff were warned not to leave their posts and be watchful about the movements of the inmates.

11. Pupil No.553 Ramaswamy escaped from the school by 7 a.m. on 12-7-1939. This boy along with 32 other boys was sweeping the dormitories and their verandah. When the petty officer Parthasarathy who was in charge was engaged in instructing a few boys to sweep properly this pupil got out of his view and escaped. He was rearrested by the Police and brought back to the school on 13-7-1939 by the Police. In the enquiry held, two petty officers viz., R. Parthasarathy and C.Krishnan Nair were found responsible for the escape and were fined Rs.3 and ~~xxx~~ Rs. 2/- respectively.

12. Pupil No.759 Narasimhalu escaped at about 6 p.m. on 25-10-39 when he was undergoing quarantine period. The Medical Officer and warden were supervising the boys in the quarantine taking meals. There was no Petty officer on the spot then. At that time the --

✓

Superintendent of the Wellesley Sanatorium Jail, Bellary arrived for visiting the school and the Medical Officer and Warden accompanied him to the kitchen etc. The boy taking advantage of this gap in supervision managed to escape from the school. He was recaptured by one Angadi Nagiah of Alipuram Village on the same night and brought back to the school next morning. A reward of Rs.5/- was awarded to -- Angadi Nagiah. No one could be held responsible for the escape. The Petty officers were severely warned by the Headmaster to be vigilant.

13, and 14. Pupil No.578 Kareem and Pupil No.496 Ethirajulu escaped on 3-1-1940 at about 11 a.m. They are still at large. That day being a school holiday, the boys were left out for playing within the compound. These two boys were helping the water peon in filling up the drinking water pots in the dormitories. After the work was over the peon Muhammad Ismail left them near the Kitchen as it was meals time and went to the Head Petty officer who sent for him urgently. After sometime these boys were found missing. Two persons were found responsible for the escape (Water peon Muhammad Ismail and Petty officer J.Doraiswamy posted for duty near the kitchen). The peon was fined Rs.2/- and the petty officer Rs.1/-.

27

Annexure 'D'

EXTRACT from the inspection report of the District Educational Officer, Bellary on the inspection of Junior Certified School, Bellary.

\*\*\*\*

Date of inspection: 4th and 5th December 1939.  
----

1. Suitable. A very spacious long corridor hall, with sufficient ventilation.
- (2) Adequate. During the year under report, the defects in this respect pointed out at last inspection have been rectified and all requirements are supplied. Only slates and books were supplied to Lower Standards nearly 3 months after the commencement of the school year. Worldmap alone has yet to be supplied.
- (3) A Tamil Secondary Grade Trained Teacher appears to be very essential and this may be done by way of substitution for the unqualified last Assistant, who is under orders of ousting.
- (4) Registers of attendance of pupils and Masters, Acquittance Roll, Admission in the form approved for the Jail Department and stagnation lists are kept and are in order. The admission register as in the M.E.R. will not suit the condition of this school and hence the present admission register may be continued. Record sheets appear unnecessary for this School.
- (5) Practical instruction is imparted in various industries - Carpentry Weaving, Tailoring and Black-smithy - and to a degree which ensures adequate wage earning and thereby normal mode of living. The attainments of pupils in this important branch of instruction are appreciable.

Physical. The mass drill and marching of the entire pupil population to the accompaniment of band played by some pupils were most imposing and almost perfect. Uniformity and keeping time to the Second are special features and the concerned Instructors deserve hearty congratulation for this achievement, with the varied and defective material dealt with varied physical exercises, Kindergarten games, athletics and major games like Hockey, Foot ball and Cricket are freely indulged in by all pupils.

Secular Instruction:- Tamil Section Instruction is in general satisfactory both in the 3 R's and General Knowledge except that Reading should improve in teachers handling 6 standards. Still the attainments of

of pupils are on the whole creditable. A few minor points have, however, to be noted. Different tones should be adopted in reading a Conversational lesson when the speeches of different characters are read. Language lessons are properly taught and it is gratifying to note that the word unit and W "look and say" method are adopted in the 1 std. in preference to the old traditional method of letters in their rigid order. In Std. II alone, writing is not up to mark, as also Arithmetic, for the main reason that slates were not supplied till about 3 months after the formation of classes. All other subjects and in all the classes were found to have been satisfactorily taught. Written work, e.g. Composition and Map Drawing was also good. A few pupils are expert in Drawing.

VI. There is a Medical Attendant with a regular Hospital exclusively for the school and best facilities are provided.

VII. Approved books are used. VIII. Fair.

Half yearly promotions in deserving cases are commended.

IX. General condition. The following new features have been introduced by the present Head Master who is highly qualified and eminently suited for Special School of this type, with his Foreign Diploma and Specialisation in the education of the defectives.

(a) Assembly classes with Moral Instruction.

(b) Investigation of the defects, as well as the aptitude of each individual and treatment regulated accordingly.

(c) Industrial Education provided includes theory also.

(d) Pupils have shown great interest and progress in Gardening.

(e) Sixth Standard has been opened during the year.

The following recommendations are made:-

(a) Introduction of English in Stds. IV, V, and VI to be handled by S.S.L.C. trained teachers.

(b) The School library needs to be improved both for pupils and teachers.

(c) Printed illustrated pictures have to be supplied.

The School has been doing excellent work even with varied and defective material in the children admitted.

The Institution provides great opportunity for effective Moral

31  
~~-3-~~

Moral Reform and doing Social Service and the Head Master is fully availing of it.

Answer to Q.4(3), Part II of the Questionnaire:-

Copy of Report No.R.C.2557/39 dated the 19th July 1939  
of the King Institute of Preventive Medicine, Guindy, on  
Samples of water from the Junior Certified School, Bellary.  
----

The sample of water from the Alipuram tank drawn on 11-7-39 is very heavily polluted, besides being very muddy and opaque. It resembles pea soup at present.

This water is treated with alum, at the rate of about 12 to 14 grains per gallon and passed through an intermittently functioning slow sand ~~and~~ filter. The sample of the filter-effluent shows considerable improvement in its physical appearance and also an enormous reduction of its organic content. Bacteriologically, however, the improvement falls considerably short of the required standard. The pH value of this sample has not been unduly lowered by the phenomenally high dose of alum used for coagulation.

The sample drawn from the chlorinated supply shows adequate improvement on the bacteriological side and also as regards organic matter content, but has become very hazy in appearance. The dose of chlorine reported to be used works out nearly 2.0 p.p.m.

Copy of the Proceedings of the Committee of Visitors of  
the Junior Certified School, Bellary in the  
Meeting No.12 held on 21st December 1939.

Present:-

A.D.Cromble Esq., C.I.E., I.C.S., Dt. Magistrate,  
Bellary.  
Captain B.M.C.I. Dall, M.B.E., Supdt. C.J., Bellary

" C. Bheemappa Choudry, Bellary  
Janab Usman Sait Bahadur, Bellary

Resolutions:

1. Proceedings of the last Meeting - Read
2. Papers of pupils recently admitted  
with register - Admissions - Nil - Noted
3. Punishment Register No Remarks
4. Medical Officer's Journal No remarks
5. After-care reports received during  
the month with register R e a d
6. General Remarks:

- B
1. The committee went round the school and found everything in order. They again draw the attention to the state of the kitchen and regret to note that no repairs have yet been started.
  2. The committee note with satisfaction the continued improvements in the school and the change in the site of the garden.
  3. The committee recommend that the carpentry section should be given new tools for their work. They consider that until this is done there can be no improvement in the quality of the work turned out.

HEADMASTER.

C.No.5644-G. f From the C.I. of Certified Schools, No.C3/3/1940, d. 22.2.40.

Children Act - Junior Certified School,  
Bellary - Inspection by the Chief Ins-  
pector - Answers to Questionnaire.

----

The C.I. inspected the Junior Certified School, Bellary, on 17/18-1-40 and has submitted a copy of the Questionnaire of Inspection duly answered. The following remarks are called for:--

(1) Answer to question 6(a) - Improvements to buildings: Please see paras 6, 7, 8 and 11 of the C.I.'s. answer to question 38 of the questionnaire of his last inspection of the school, wherein he suggested that certain improvements might be made to the kitchen, dining hall, latrine and dhoby shed in consultation with the P.W.D. From his answer to question 6(a) now submitted by him and paras 6, 7 and 9 of his general remarks on pp.15-16 c.f., it would appear that the P.W.D. have already been requested to carry out the suggested improvements, but that they have been delaying the execution of the works for the past 9 months. Please also see portion 'B' of the Proceedings of the Committee of Visitors of the School, dated 21.12.39, and the Headmaster's remarks thereon. For orders whether the Chief Engineer may be requested through the P.W. Dept. to expedite the execution of the works. If so, relevant extracts from this file may be sent to P.W.D.

(2) Answer to question 8(a) - Escape of pupils during the year: There were 14 escapes from the school from 21.4.39 to 18.1.40, of which 2 relate to the year 1940. The number of escapes in 1939 was therefore 12 as against 6 during 1938. Of the 14 escapes, 11 have been recaptured and readmitted into

cf p3g (H)

y 'k' on p17cf

the school. Three are still at large - one who escaped in 1939 and two who escaped in 1940. In the case of four pupils (6, 9, 10 and 12) it is stated that the responsibility could not be fixed on any one. In the other cases the officers responsible for the escapes have been punished. On the large number of escapes during the year, please see the C.I.'s. remarks in para 15 on pp.17-18 c.f. If men with sufficient qualifications are not available for appointment as special grade petty officers, then the proper course is to convert the posts into ordinary grade ones. As the staff is said to be inadequate, it is for orders whether the suggestion may be put to the C.I.

(3) Answer to question 9(1) - Ration supplies

From the comparative statement in Annexure 'B' it will be seen that the approved rates are more favourable than the current market rates in all cases except in the case of wheat and dhall gram. No remarks <sup>are</sup> called for.

(4) Answer to question 11(2) - Supply of second cumbly during cold weather: Orders have since been issued in G.O.No. 785, Home, dated 15.2.40, sanctioning the supply of second cumbly during cold months to the pupils in the school at a cost not exceeding Rs.425 a year.

(5) Answer to question 13(a) - Individual visits by members of the Committee of Visitors:

The C.I. has reported that apart from the regular meetings of the Committee of Visitors, <sup>no</sup> non-official visitor individually visited the school during the year. This is perhaps due to the absence of specific direction in the rules that they should make such visits. In the draft rules separately under consideration, specific

provision has been made for such visits - cf. draft rule 24 of draft rules put up. No action seems called for.

(6) Answer to question 20 - House system: Orders are separately under issue informing the C.I. that the Govt. have no objection to his issuing a set of draft instructions to the Headmasters/Supdts. of the Certified/Supdt. of the <sup>certified</sup>/Borstal schools for the efficient running of the 'House system' in the schools. No action.

p 11 cf

(Separate file)

(7) Answer to question 28(5) - Enlargement of carpentry section: The proposal to purchase additional tools and workbenches for the enlargement of the carpentry section of the school at an estimated cost of Rs. 2,100 was treated as a part II scheme for 1940-41 and provision has been made for the amount in the budget. Intimation from Finance of H.E. <sup>Mr. G. V. 46</sup> approval of the budget is awaited. The C.I. has since submitted a revised indent and the file has been submitted separately.

(Since passed in letter on 2/3)

p 12 cf

(Separate file - not linked)

(8) Answer to question 29 - Appointment of an Addl. Weaving Instructor and a compounder in the school: The proposal to employ an additional weaving instructor has been accepted in this and the Fin. departments and a reference has been issued to the C.I. as to the scale of pay to be allowed for the post. The C.I.'s. reply is awaited.

p 12 cf

separate file - not linked)

p 12 cf

As regards the C.I.'s. proposal to employ a compounder in the school, a reference has been issued to the C.I. calling for further particulars about the admissions into the hospital and the daily average sick in the school for the <sup>past</sup> three years; and the C.I. says that the reply will be submitted separately.

2. Answers to question 8(a) and  
38 (para 15) - Escape of pupils during  
the year - Inadequacy of petty officer  
staff: The C.I. reports that the presen  
staff of nine petty officers against  
the sanctioned strength of 11 is inade-  
quate and that persons with the pres-  
cribed qualifications are not available  
for appointment as special grade petty  
officers. The C.I. is informed that  
may apply to Govt. for permission to recruit  
he may recruit ordinary grade petty  
officers temporarily to the posts on  
(lower grade)  
the scale of pay admissible to them  
until qualified men are available for  
the special grade posts.

3. Answer to question 13(a) -  
Individual visits by members of the  
Committee of visitors: The C.I. is

Extracted from

pp 18-20 (C)

Question 38, Part I of the Questionnaire:--

Remarks:--

418-197

(C)

6. The kitchen is fly-proof and was kept clean but there are no facilities for dressing vegetables and cleaning kitchen utensils. The space near the ovens was not enough for the cooks to move about. They find it difficult while handling heavy iron undahs. The Public Works Department Supervisor who was present was shown all these by me. The Headmaster should therefore in consultation with the Public Works Department suggest further improvements to the kitchen.

4197(c)

7. The screen wall in the Dining hall serves no useful purpose and should therefore be dismantled in consultation with the Public Works Department.

8. The number of latrine seats is 39 in all. This works out to 10% of the population. But as the boys are small and they have acquired bad habits from their early childhood days it is very difficult to wean these boys especially in the beginning. It is necessary to have more seats. There are some old latrines there which with a little modification and little more expenditure to the Government may be made into a proper latrine.

419-207(c)

11. The Dhoby shed is an old dilapidated structure. The Public Works Department Overseer who was present then was shown by me what improvements to

43  
effect and was asked to improve the shed with the materials available there

S.C. Contractor,  
C.I. of Cert. Schools.

-----  
Extracts from the inspection questionnaire for the Junior Cert. School, Bellary, which was inspected by the C.I. of Cert. Schools in January, and subd. with his letter to Govt. Pdl. No. C3-3/1940, dated 22.2.40:--

Q. 6(a) Are the buildings )  
sufficient, suitable and in )  
good repair? If not, in )  
what respects are additions, )  
alterations, or repairs )  
called for? )

Yes, but not in good repair. Improvements suggested at my last inspection in April 1939 to the kitchen, dining hall, latrine and dhoby-shed have not been carried out. The Asst. Engineer, Public Works Dept., was present at the time of my inspection on 18.1.40. He was again requested to carry out the improvements as quickly as possible. I cannot understand why the Public Works Dept. are delaying execution of these works after even 9 months. Since my last inspection these improvements have not been carried out.

Qn. 38. General Remarks by C.I.  
x x x x

(6) Since my last inspection very little has been done by the Public Works Dept. in the way of improvements, alterations, etc. Nothing has been done to the kitchen yet. The Sub Divisional Officer was sent for and I pointed out the improvements that were still not undertaken. I found the kitchen smoky. The Headmaster should get into touch with the Public Works Dept. and remedy this defect. There are two pillars which come in the way of those who are engaged in the cook room. These may be removed and instead a girder may be put in consultation with the Public Works Dept.

exhibits to  
pp 16-17 g (A)

3.

44

~~exhibits to~~  
pp 11 on pp 1-2 and 3

7. The old Dhobykhana which I pointed out in my last inspection is still in a dilapidated condition. If alterations cannot be effected to this building, it may be considered whether it is worth retaining it there as it may be a source of danger to the lives of the pupils.

9. There appears to be inadequacy of latrine seats there being only 39 seats for a population of 343. This may be increasing and additional seats may be required. There is an old Alipuram Jail latrine near-by which was pointed out to the Public Works Dept. Overseer during my inspection last year which can be converted into a very good latrine with a little expenditure. Everything is there except the side walls and a roof may be necessary which can be done without very much expenditure as there is plenty of old material available there.

S.C. Contractor,  
C.I. of Certified Schools.

para 7 or  
p 1 a

Of the four items of works referred to in the remarks of the Chief Inspector of Certified Schools the work of dismantling the screen wall in the dining hall was already carried out in August 1939.

2. Regarding the improvements to the kitchen suggested in para 6 of the Chief Inspector's inspection questionnaire on p.1 ante, the Executive Engineer has reported that a detailed estimate for the work was received from the Sub Divisional Officer on 16th December 1939, that as the estimate had to be classified under 'original works' and as no grant was available for the work under 'minor works' he did not send the estimate to the Headmaster of the School at once, but informed him in his letter dated 4th March 1940 and that the work would be taken up during the year 1940-41, if funds were provided. The Executive Engineer has also stated that the estimate was sent to the Headmaster for obtaining the countersignature of the Chief Inspector with his letter dated 4th March 1940, that it was received back on 14th March 1940 duly countersigned and that it has since been sanctioned and sent to the Sub Divisional Officer for execution, last month. He expects the work to be completed within 6 weeks.

myl - H 18-52  
(C)

3 Para 8 of the Chief Inspector's Inspection -- questionnaire on page 1 ante regarding latrines.

p 1 and 2  
H 127 (C)

The Executive Engineer has reported that an extract of the Chief Inspector's remarks regarding this item was received in his office on 3rd July 1939 and communicated to the Sub Divisional Officer on 19th July 1939,

1939,

W

1939, that though the Section Officer concerned submitted an estimate for Rs. 1,920/- for the work to the Sub Divisional Officer on 3rd September 1939. the latter did not take any action till 26th February 1940 on which date he returned the estimate to the Section Officer with instruction to revise it with reference to the latest proposals of Chief Inspector in his inspection on 18th January 1940. This revised estimate was not submitted by the Section Officer till the end of March last. The Executive Engineer has during his inspection specially instructed the Section Officer, to sit at the estimate, complete it and send it direct to him for obtaining the Chief Inspector's countersignature.

4 Para 11 of the Chief Inspector's Inspection questionnaire on pages 1-2 ante.

Has not been done yet

An extract of the Chief Inspector's Inspection questionnaire was received by the Executive Engineer on 3rd July 1939 and on 20th July 1939 it was sent by him to the Sub Divisional Officer who in his turn transmitted it to the Section Officer concerned. The Section Officer did not prepare and submit the estimate till March last. The Executive Engineer personally instructed the Section Officer to prepare and submit the estimate direct to him before 15th April 1940 for taking necessary action.

5 I observe that there has been avoidable delay on the part of the Section Officer and the Sub Divisional Officer and that the Executive Engineer was remaining inactive without issuing reminders to the Sub Divisional Officer. I am asking the Superintending Engineer to obtain and submit the explanation of the concerned officers and shall

deal

3.

49

deal with them suitably on receipt of their explanations. In the meantime I am also issuing instructions to the Executive Engineer to take steps to carry out the work immediately.
